# INTERNATIONAL DISTRIBUTION ON DEMAND

## WHAT DOES IT CONSIST OF?

Distribution On Demand is a business model that allows the book to be always available and any bookstore to place an order when they need it. The publisher extends the life of his catalog to infinity, earning long-term income. DOD is to get a local national and international distribution. Thanks to the Quares platform, Myprintedbook has access to global distribution. Currently operating in Mexico, USA, Europe, Chile, and Argentina.

## WHAT ARE ITS BENEFITS?

All books have an on-site production, local production costs and a certain profit on each sale, returns are not allowed. Updated virtual catalogs are shared, making them visible at the moment and available for any bookstore to order. The publisher always have information on each sale at the time it occurs, indicating the country and the royalty earned.
